Print directly onto cake toppers, fondant and decorative sheets

DTM print

Connie™, The Cake Sheet Printer

A professional edible icing sheet printer that stays clean, clog-free and ready to print - even between uses.

Most edible sheet printing today relies on converted consumer printers that clog, requiring constant maintenance and often aren't ready when you need them.

Connie™ is different.

It's purpose-built for edible sheet printing with a clog-resistant printhead, automated maintenance routines and a sealed ink system designed to stay clean and ready - even after sitting idle.

At the same time, Connie is built for real food environments, with NSF certification, FDA-approved materials in all sheet-contact surfaces and throughout the printhead's ink path and edible ink cartridges filled in an FDA-, Kosher- and Halal-inspected clean room.

Specifications

Print Method	Thermal inkjet with edible ink
Print Resolution	1200 x 4800 dpi
Inks	Single high capacity CMY ink cartridge, process black
Maximum Print Size	279.4 mm x 432 mm (min. print width: 101.6 mm)
Operating Systems	Windows 8 and higher, macOS 11 and higher
Power Requirements	100 V – 240 V AC (50/60 Hz)
Weight	10 kg
Dimensions (WxHxD)	487 mm x 513 mm x 684 mm
